The Impact of Evolution on Bible Interpretation (Part 2)

The naturalistic Man in one shape or fashion has denied the existence of God and the authority of His Word. He trumpets that everything is material and non-spiritual, also that this physical realm is all we have and/or need. However, because of this and man's perpetual decline resulting in disobedience and a lack of trust in God's Word, he has grown cold to absolute truth and a moral standard found therein and has established his own righteousness (Romans 10:1-3). There are two types of naturalism, (1) metaphysical naturalism and (2) methodological naturalism, both of these are a disgrace to the biblical conclusions of the scriptures stating that God doesn't exist and His help is not needed. In addition, when God is rejected, man is respected thus causing the confusion that has been going on for hundreds of years.

In conclusion, the attacks upon the scriptures concerning evolution are alarming and unacceptable when the evidence is laid bare. This demonic teaching emasculates the authority of God and His Holy Word. Naysayers are usually attempting to thwarted God's word because of unbelief (Hebrews 3:19). For this reason the Christian must study to show himself approved unto God...they must intelligently search the scriptures acutely to be able to ward off the gainsayer (2 Timothy 2:1). If there were a chance of evolution being true, then there would not be a reason to believe, honor, worship and serve our God. Let God be true.
